

MODEL - AMC 650

The AEROMECC Automatic Marking Machine is expressly designed to mark in colour all types of polyethylene pipes, rigid PVC Pipes during extrusion process.

The AEROMECC Machine do not have any induction motor to drive, it requires power only for heating. Scope of marking by AEROMECC Machine Model No. AMC-210 is 90mm to 630mm outside diameter. The marking is done at every one meter on the Pipes by using PANTOGRAPHED BRASS / SS STEREOS (STAMPS) fixed on the heating wheel. The stereos are heated by using Electronic percentage differential circuit which adjusts the temperature. It is designed to colour mark by using a coloured polyester tape placed between the stereos and the Pipes to be marked.

SPECIFICATIONS

Characters (Stereos) size maximum 15 mm..

Dimensions : H-1.8m X W-0.9m X D-1.1m.

Total weight approximately 200 Kgs

OPTIONAL

3/4 digit mechanical counter.

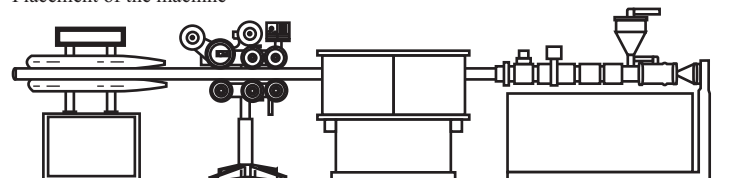

7 digit coddors.

Stereos

Placement of the machine
