

MODEL - AMC707

The AEROMECH HORIZONTAL Automatic Marking Machine is expressly designed to mark in colour all types of polyethylene pipes, rigid PVC Pipes during extrusion process.

The AEROMECH Machine do not have any induction motor to drive. it requires power only for heating. Scope of marking by AEROMECH Machine Model No. AMC-707 is 315mm to 1200mm outside diameter. Center height of the pipe it can handle min. 1180mm , max. 1700mm. The marking is done at every one meter on the Pipes by using PANTOGRAPHED BRASS / SS STEREOS (STAMPS) fixed on the heater body. The stereos are heated by using Electronic percentage differential circuit which adjusts the temperature. It is designed to color mark by using a colored polyester tape placed between the stereos and the Pipes to be marked.

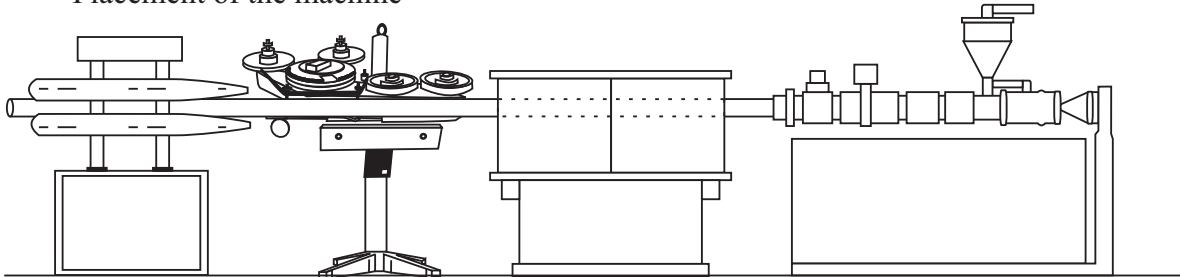

SPECIFICATIONS

Characters (Stereos) size maximum 15 mm. to 20mm.
Dimensions : H-1.5m X W - 1.2 m X D-0.8 M.
Total weight approximately 200 Kgs.

Stereos

Placement of the machine
